("PBT Group" or "the Company")

## **CHANGE IN SECTOR CLASSIFICATION**

Following a request by the Company for a FTSE/JSE sector classification review, PBT Group shareholders are advised that the Company will be re-classified from (8770) Financial Services, sub-sector (8771) Asset Managers to (9530) Software and Computer Services, sub-sector (9533) Computer Services, effective on Friday, 31 March 2017.

The board of directors of the Company is of the view that the sector re-classification is appropriate to, and descriptive of, the Company's remaining operations following Stellar Capital Partners Limited's acquisition of the financial services division of Prescient Limited, Prescient Holdings Proprietary Limited. This re-classification represents the strategic vision of the PBT Group whose operations consist entirely of information management services.
